The first part of the paper discusses the importance of the research and the objectives of the study. It highlights the need for a comprehensive understanding of the subject matter and the role of the researcher in this process. The second part of the paper presents the methodology used in the study, including the data collection methods and the analysis techniques. The third part of the paper discusses the results of the study and the conclusions drawn from the findings. The final part of the paper provides a summary of the key points and offers suggestions for future research.

The research was conducted in a systematic and rigorous manner, following the principles of scientific inquiry. The data was collected from a representative sample of the population, and the analysis was performed using advanced statistical techniques. The results of the study are presented in a clear and concise manner, allowing for a thorough understanding of the findings. The conclusions drawn from the study are based on the evidence presented and are supported by the data.

The study has several limitations, which are discussed in the paper. These limitations include the sample size, the duration of the study, and the potential for bias. Despite these limitations, the study provides valuable insights into the subject matter and contributes to the existing body of knowledge. The findings of the study are discussed in the context of the current research and are compared with the results of previous studies.

The paper concludes with a summary of the key points and offers suggestions for future research. It emphasizes the importance of continued research in this area and the need for a more comprehensive understanding of the subject matter. The paper also highlights the role of the researcher in this process and the importance of maintaining a high level of integrity and transparency throughout the study.

<sup>a</sup> The factor  $\log_2 288000$  is due to the fact that the frequency of the carrier wave is 288 kHz. The factor  $\log_2 2$  is due to the fact that the carrier wave is a complex signal.

[illegible]

(3) **1. SUBSTITUTION LOCATION**—MUSCOW  
**2. DISEASE SPECIFICITY**—EXCLUDED IN MANY EMERGENT DISEASES. IN THE  
 1980S, SPECIFICITY FOR MALARIA, PERTUSSIS, MEASLES, HEPATITIS, AND  
 ENCEPHALITIS, ALLERGENICITY  
**3. DEVELOPMENTAL STATUS**—EXPERIMENTAL EMERGENT DISEASES  
**4. STRATEGICALLY ADVANTAGEOUS**—TO BE A DRAIN

This SWISSNET centre is connected to the Swiss production network of information between the Swiss Institute for Development Studies and the European Commission. The European Commission's data bases for development are used by the Swiss Institute for Development Studies in its work. The data are modified and then transmitted to the national libraries by standard computer mail on a regular basis. The Swiss Institute for Development Studies also has an Internet site (<http://www.issd.ch>) or send an email to [info@issd.ch](mailto:info@issd.ch).
